

Ranger & Ranger All American Series

UNRIVALLED PERFORMANCE, ADVANCED TECHNOLOGIES & COMPONENTS PROVIDE A FLEXIBLE, MULTI-TALENTED SERIES OF TRAPS

The *Ranger* series surpasses the performance and reliability of any trap on the market other than our own high capacity Sporter 400TT & Super Sporter ranges. A 300 clay capacity, strong 100 yard performance, fast re-cocking and high reliability mechanics provides you with a flexible, multi-talented series of traps. This trap is well suited for larger clubs and commercial grounds where near constant use places a heavy demand on components and machine down time can mean lost revenue.

The newest evolution of the Ranger series, our *Ranger All American*, incorporates a host of new features aimed at making it the most versatile launcher available. It is able to throw targets at angles of up to 70 degrees and downhill targets of up to 10 degrees below the horizontal. Thanks to our innovative spring-action, hand-operated locating pin, the tilt angle of the trap can be changed in a matter of seconds without the use of a wrench.

For a completely different flight profile, many ranges have included our *Ranger All American Left/Hand* model in their layouts.

Ranger All American on our innovative Rapid-Set Tilt & Turn Base

Tilt Base set in Teal Position (up to 70° vertical)

- **Stainless Steel, alloy and corrosion protected parts for long lasting rust protection**
- **High strength main frame and components for constant commercial use**
- **Holds 300 clays**
- **Throwing distance up to 90 Yards**
- **Tilt & Turn Base (excludes Wobble)**
- **Rapid-Set tilt & vertical adjustment with the spring loaded locating pin (All American model only)**
- **1.5 second re-cocking time**
- **Powered by 12 volt battery or optional 110v transformer**
- **Proven “Knife Edge” system to feed wet or frozen clays without failure**
- **Throws standard or midi clays with a quick change of the carousel (All American model)**
- **Mini version available in the standard Ranger model**
- **Comes with 162’ release cable, quality release switch and comprehensive owners manual.**
- **Lifetime warranty on clutch and main bearing; 3 year warranty on all other parts**

OPTION	DESCRIPTION
Footswitch	Ideal for solo use as it allows the shooter to release targets while keeping both hands on the gun. It is a heavy duty unit designed to take field use.
Extension Cable	162’ extension cable for increased distance between the shooter and trap.
Radio Release Systems	Say goodbye to trailing wires and allow for quick course changes. High efficiency units allow for wireless use of any Promatic launcher. Great for solo shooting. Short cable fits between the trap and a standard release, footswitch, or radio release. 2.5 second delay between pressing fire and the trap release. Press twice to get a following pair; up to 6 times for a mini flurry. Simple, waterproof, no batteries or wiring.
Pro-Delay Cable	
Cart	This 2 wheel cart with pin-hitch connection makes any sporting Promatic machine fully portable. Includes battery mount and 12" solid rubber tires.
Solar Panel	Harness the power of the sun to maintain the charge in your battery for continued shooting for days without the worry of the battery losing charge.
Transformer	Add our transformer to run your machine on either 110v electricity or 12v DC power.

Ranger & Ranger All American Series

UNRIVALLED PERFORMANCE, ADVANCED TECHNOLOGIES & COMPONENTS PROVIDE A FLEXIBLE, MULTI-TALENTED SERIES OF TRAPS

Also in the Ranger series is the *Ranger Wobble* trap with rapid response dual motor wobble movement on the horizontal and vertical planes. Our Ranger Wobble has six different rotation angle settings and three different elevation angle settings. The machine also features a built in timer to stop the oscillation motors once shooting has finished thus extending the battery life between charges.

Ranger Wobble

★ Ranger Chondel / Rabbit w/ Tilt & Turn Base

The *Ranger Chondel / Rabbit* provides versatility with dual throwing arms and tilt and turn base. This trap throws conventional clays either just above the ground, as loopers, or near vertical teal. With a quick change of the throwing arm, it can release Rabbit targets on the ground or in the air. The speed of these adjustments allow clubs to change their course as often as they want to meet their requirements.

Our Tilt & Turn Base

Gives rapid changes to flight direction and profile

KEY TECHNOLOGY MINIS

Mini traps require a specifically designed carousel, dropping mechanism and 'Knife Edge' to achieve optimal performance. A Promatic trap is not a Promatic unless it can achieve this year after year regardless of the weather, target size or other external factors. We offer Mini trap models in all of our club and commercial product lines.
