

Hobby & Hobby Trap Trainer

THE HOBBY GIVES YOU BIG TRAP FEATURES AND EXCEPTIONAL QUALITY FOR A LOW PRICE

Promatic used our years of experience building the World's Finest Commercial Traps to make the World's Finest Personal Use Traps.

The **Hobby** includes many of our legendary quality features - rugged high strength blue powder-coated construction, fully-sealed electronics, direct-drive high power motor linked to a sealed alloy gearbox, and full length throwing plate matched to a alloy arm for incredible distance with high target spin. In short you get consistent, perfect targets every time, with the knowledge that the life span of a Promatic trap is measured in years not weeks.

A complete range of accessories and compatibility with Claymate and other popular electronics means the **Hobby** grows with you, providing an opportunity for future upgrades.

Horizontal Oscillator

KEY TECHNOLOGY

12 VOLT

All of our traps can run from a standard 12v battery, so no messy wiring and total portability. Attach one of our Solar Cells to maintain a charge for days on end or if you want, we can provide our optional transformer to link up to your main power supply.

- Holds 50 Standard Clays
- Throwing distance up to 70 yards
- Max Elevation - 40 degrees
- Powered by 12 volt battery
- Quality motor gear unit and clutch for 3/4 cocking ensures smooth operation and long life
- Steel mainframe with rust resistant coating and alloy throwing arm
- Standard with a cart
- 162 ft cable with quality release switch
- Trap Trainer model provides simulation for trap training and includes angle adjustment and oscillation on/off controls
- Optional Battery & Charger Set
- 1 year parts warranty
- Backed by Promatic Superior Service Team

OPTION	DESCRIPTION
Footswitch	Ideal for solo use as it allows the shooter to release targets while keeping both hands on the gun. It is a heavy duty unit designed to take field use.
Extension Cable	162' extension cable for increased distance between the shooter and trap.
Radio Release Systems	Say goodbye to trailing wires and allow for quick course changes. High efficiency units allow for wireless use of any Promatic launcher. Great for solo shooting. Short cable fits between the trap and a standard release, footswitch, or radio release. 2.5 second delay between pressing fire and the trap release. Press twice to get a following pair; up to 6 times for a mini flurry. Simple, waterproof, no batteries or wiring.
Pro-Delay Cable	
Cart	This 2 wheel cart with pin-hitch connection makes any sporting Promatic machine fully portable. Includes battery mount and 12" solid rubber tires.
Solar Panel	Harness the power of the sun to maintain the charge in your battery for continued shooting for days without the worry of the battery losing charge.
Transformer	Add our transformer to run your machine on either 110v electricity or 12v DC power.
