

Harrier XTS

IDEAL FOR PERSONAL USE OR SMALL GROUPS

With three to four times more capacity than our single stack machines, the **Harrier XTS** is perfect for a single shooter, a group of friends, or a small members' club.

The Harrier has a simple and robust design with a host of features including a 200 clay carousel - enough capacity to use in competitive shoots. Three, four, and even five people can shoot a 30 target competition without needing to refill.

The Harrier XTS includes the Promatic Tilt & Turn Base adding the ability to adjust vertical height to 70 degrees and side to side tilt to extreme positions. This trap is available in standard or midi.

KEY TECHNOLOGY

THROWING STRIP

Our throwing strip is perfectly positioned to maximize contact with the target. Couple this with the unique polymer material used for the strip and you impart maximum spin onto the target, while minimizing the risk of cracking it. That is why our targets fly further, faster and truer, giving consistent target performance for competition use.

- Holds 200 clays
- 1.5 second re-cocking time
- Throws up to 75 yards
- Powered by 12 volt battery
- Proven "Knife Edge" system
- Standard or Midi with simple change of the carousel
- 162 ft cable with quality release switch
- Steel mainframe with hard blue polyester finish
- Durable electrical control box with simple toggle switch for on/off
- Lifetime warranty on one-way bearing; 3 year warranty on all other parts

OPTION	DESCRIPTION
Footswitch	Ideal for solo use as it allows the shooter to release targets while keeping both hands on the gun. It is a heavy duty unit designed to take field use.
Extension Cable	162' extension cable for increased distance between the shooter and trap.
Radio Release Systems	Say goodbye to trailing wires and allow for quick course changes. High efficiency units allow for wireless use of any Promatic launcher.
Pro-Delay Cable	Great for solo shooting. Short cable fits between the trap and a standard release, footswitch, or radio release. 2.5 second delay between pressing fire and the trap release. Press twice to get a following pair; up to 6 times for a mini flurry. Simple, waterproof, no batteries or wiring.
Cart	This 2 wheel cart with pin-hitch connection makes any sporting Promatic machine fully portable. Includes battery mount and 12" solid rubber tires.
Solar Panel	Harness the power of the sun to maintain the charge in your battery for continued shooting for days without the worry of the battery losing charge.
Transformer	Add our transformer to run your machine on either 110v electricity or 12v DC power.
