

Pro ATA

**COMPETITIVE PRICES, TRAP PERFORMANCE AND TARGET CONSISTENCY
MAKE PROMATIC THE CHOICE FOR TRAP SHOOTERS AROUND THE WORLD**

Our ATA traps include models to suit all budgets and requirements. Produced with the same quality of build found in all Promatic machines, they are the trap of choice for small clubs to large commercial grounds.

PRO ATA — A high power and highly featured trap, the Pro ATA includes heavy duty components to ensure years of trouble free operation. This machine offers a solenoid release for instantaneous firing and a random oscillating motor timer to prevent the targets from being patterned and to stop the oscillation motors once shooting has finished extending battery life between charges. Includes AGM battery and Tender.

- Alloy and corrosion-protected parts for long lasting rust protection
- Capacity - 300 targets
- Only 36" high to suit all trap houses
- Steel mainframe with hard blue polyester finish
- 5 angle settings
- Multi-position drive disk for throwing angle setup
- Lifetime warranty on the clutch and one-way bearing; 3 year warranty on all other parts

OPTION	DESCRIPTION
Footswitch	Ideal for solo use as it allows the shooter to release targets while keeping both hands on the gun. It is a heavy duty unit designed to take field use.
Extension Cable	162' extension cable for increased distance between the shooter and trap.
Radio Release Systems	Say goodbye to trailing wires and allow for quick course changes. High efficiency units allow for wireless use of any Promatic launcher.
Counting System	Add a target counting system to ensure you get paid for every target thrown. We offer Claymate Wi-Card system for every shooting discipline.
Canterbury Voice Release	The world's most reliable voice-activated release system. No more complaints about puller's and no more 'turning down' fast or slow targets. Available wired or wireless.
Pro-Delay Cable	Great for solo shooting. Short cable fits between the trap and a standard release, footswitch, or radio release. 2.5 second delay between pressing fire and the trap release. Press twice to get a following pair; up to 6 times for a mini flurry.
Cart	This 2 wheel cart with pin-hitch connection makes any sporting Promatic machine fully portable. Includes battery mount and 12" solid rubber tires.
Solar Panel	Harness the power of the sun to maintain the charge in your battery for continued shooting for days - without the worry of the battery losing charge.

Pro 10 ATA Pro 10 ATA/Wobble

**COMPETITIVE PRICES, TRAP PERFORMANCE AND TARGET CONSISTENCY
MAKE PROMATIC THE CHOICE FOR TRAP SHOOTERS AROUND THE WORLD**

Pro 10 ATA — This top specification ATA trap has a 400 target capacity and a tilting mechanism on the base to keep targets perfectly level in flight. A simple setup device for centering the field at the start of the day and quick and easy adjustment for crosswinds are incorporated into the design. Optional solenoid for ISSF qualifications and turnbuckle for height adjustment, and includes AGM battery and Tender.

- Alloy and corrosion-protected parts for long lasting rust protection
- Only 36" high to suit all trap houses
- Heavy duty cast aluminum main-frame
- Optional solenoid for ISSF qualifications
- Clay capacity - 400 targets
- Timers for automatic stop and random movement interrupter
- Multi-position drive disk for throwing angle set up with cross-wind adjustment
- 10 angle settings
- Lifetime warranty on the clutch and one-way bearing; 3 year warranty on all other parts

PRO 10 ATA/WOBBLE —This versatile machine is designed to give outstanding performance and can be used for trap or wobble. The performance is outstanding, largely because of the precision adjustment you can achieve over the target flight. Key features include the Promatic tilt mechanism for perfect level target flight, a multi-position rotation disc with nine different angle settings, and cross-wind adjustment matched to a turnbuckle for fine tuning angles.

- 400 clay capacity
- Heavy duty cast aluminum main-frame
- Optional solenoid for ISSF qualifications
- 10 angle settings
- Timer for automatic stop and random movement interrupter
- Multi-position drive disk for horizontal throwing angle setup with crosswind adjustment
- Multi-position drive disk for vertical throwing angle setup
- Lifetime warranty on the clutch and main bearing;
- Backed by the Superior Promatic Service Team

KEY TECHNOLOGY

SIMPLE ADJUSTMENTS

Many of our ATA traps feature Field Centering plus our high-precision turnbuckle mechanism for accurate height adjustment. Once the height is perfectly set, you can utilize the tilting base system to set perfect level targets with no curl. Finally, we fit a quick and simple crosswind adjuster on the oscillating gearbox, so all competitors face an equal challenge. All very easy to use in a matter of seconds.
