

# Matrix 8

**DESIGNED & BUILT SPECIALLY FOR THE WORLD MARKET; WITH MORE POWER, CAPACITY AND HEAVY DUTY COMPONENTS**

**Matrix 8**

The **Matrix 8** has been created for small clubs. It gives you unrivalled performance, using advanced technologies and components to provide a flexible, multi-talented series of traps as either a right-handed, midi, mini, battue and left-handed thrower.

- 400 clay capacity
- 100 plus yards throwing distance
- 1.5 seconds re-cocking time
- Proven "Knife Edge" system to feed wet or frozen clays without failure
- Stainless steel throwing plate, alloy and corrosion protected parts for long lasting rust protection
- Powered by 12 volt battery or optional 110v transformer
- Available in Standard, Midi, Mini Battue and Left Hand versions
- Comes with 162' release cable, quality release switch and comprehensive owners manual
- Lifetime guarantee on the clutch and one-way bearing; 3 year warranty on all other parts

### HINTS AND TIPS

#### LEFT-HANDED

When designing a competition Sporting/FITASC course, consider using two or three of our left-handed models. These machines use negative curl to throw a different flight profile from any other trap on the market.

OPTION	DESCRIPTION
Footswitch	Ideal for solo use as it allows the shooter to release targets while keeping both hands on the gun. It is a heavy duty unit designed to take field use.
Extension Cable	162' extension cable for increased distance between the shooter and trap.
Radio Release Systems	Say goodbye to trailing wires and allow for quick course changes. High efficiency units allow for wireless use of any Promatic launcher. Great for solo shooting. Short cable fits between the trap and a standard release, footswitch, or radio release. 2.5 second delay between pressing fire and the trap release. Press twice to get a following pair; up to 6 times for a mini flurry. Simple, waterproof, no batteries or wiring.
Pro-Delay Cable	
Cart	This 2 wheel cart with pin-hitch connection makes any sporting Promatic machine fully portable. Includes battery mount and 12" solid rubber tires.
Solar Panel	Harness the power of the sun to maintain the charge in your battery for continued shooting for days without the worry of the battery losing charge.
Transformer	Add our transformer to run your machine on either 110v electricity or 12v DC power.
